OTHER CITY ITEMS:

Lance Bates - Bonneville County Public Works - Stoltenberg Lane Discussion -

Mayor Manwaring provided an overview of the current status. Mr. Bates will discuss current costs and access during. He provided a cost breakdown from 8/2023 to now 1/2025. He does not have an estimate of how much savings, if any, if the crush happened in Swan Valley. They believe they can do this for what they estimated or less. There will be delays in access when this project is in process. We have to have some access for emergency services to have access. It could be a three year project based on the approach. They will need to rent equipment to support this project. The soonest it would start is Fall 2025. The city would like a plan for the project so we can ensure that the budget will support the project. The city would also like a Phase plan with payment date identified. If there's benefit to the City to crush in Swan Valley such as a savings for future projects. If the county can provide a plan with access for residents and emergency services and in terms of budget to know what budget years this will be spent. Mr. Bates will provide an estimate of what the cost might be if they crush in the valley.

The meeting was adjourned 7:45 PM
